NEAREST POSTCODE

PE5 7DB

The nearest postcode is an aid to location, and does not necessarily reflect the actual address of the monument. Most scheduled monuments are not occupied buildings and have no postal address or postcode of their own. In rural and coastal areas, the nearest geocodable postal address may be several miles away.

Notes

Earthwork remains of a possible Medieval manorial complex consisting of a two enclosures - the largest possibly a moat containing a building. However the site has been used as osier beds and this may have been its original function.
